S Yu Petrushenko

Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition) S Yu Petrushenko
Book "Artificial intelligence based systems for unmanned aerial vehicles" The book presents a comprehensive approach to solving the problem of increasing the efficiency of air reconnaissance. The focus is on the development of intellectual information system using filtering techniques, methods for features detection, image compression algorithms, processing and image enhancement algorithms and models for mapping the features, algorithms for robust estimation of the fundamental matrix, methods of detection of moving objects in real time, algorithms for tracking of moving objects, algorithms for pattern recognition and others. The synthesis of these methods can solve a wider range of tasks assigned to air reconnaissance complexes. The main advantage of the developed intelligent information system is the ability to adapt to the specific characteristics of a reconnaissance complex.

From reader reviews:

Dawn Spigner:

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite e-book and reading a book. Beside you can solve your short lived problem; you can add your knowledge by the book entitled Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition). Try to the actual book Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition) as your pal. It means that it can being your friend when you really feel alone and beside that of course make you smarter than ever. Yeah, it is very fortunated to suit your needs. The book makes you a lot more confidence because you can know everything by the book. So , we should make new experience and also knowledge with this book.

Curtis Dugan:

Hey guys, do you wants to finds a new book you just read? May be the book with the headline Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition) suitable to you? The particular book was written by well-known writer in this era. The particular book untitled Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition)is the main of several books which everyone read now. This book was inspired lots of people in the world. When you read this guide you will enter the new dimensions that you ever know ahead of. The author explained their thought in the simple way, thus all of people can easily to recognise the core of this e-book. This book will give you a wide range of information about this world now. So that you can see the represented of the world in this particular book.

Sharon Novick:

Is it a person who having spare time after that spend it whole day by simply watching television programs or just lying on the bed? Do you need something totally new? This Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition) can be the solution, oh how comes? It's a book you know. You are therefore out of date, spending your time by reading in this brand new era is common not a nerd activity. So what these ebooks have than the others?

Chris Holmes:

A lot of e-book has printed but it differs from the others. You can get it by net on social media. You can choose the top book for you, science, witty, novel, or whatever by means of searching from it. It is known as of book Artificial intelligence based systems for unmanned aerial vehicles (Russian Edition). You can add your knowledge by it. Without departing the printed book, it may add your knowledge and make you actually happier to read. It is most essential that, you must aware about reserve. It can bring you from one spot to other place.
