Trying to gain perspective is clearly needed in a world of ridiculous extremes and the crazy chances of life. The author has been interested for a long time in the horizons that C. S. Lewis brings to his work and the way they open out. Lewis leads you into many other fields, and the books and imaginative worlds that he loved, his researches and especially the beliefs that shaped his life, lead you still further, unbarring and expanding new and challenging ideas. This book considers this unifying thread in the work of Lewis.
