David W. T. Brattston

Traditional Christian Ethics: Volume One: An Introduction and Indexes David W. T. Brattston

Volume One of Traditional Christian Ethics describes the terminology, discusses popular approaches to ethical decision-making today, illustrates that the earliest Christians conducted themselves in accordance with a large number of specific moral rules, states the method of this set of books for reconstructing the content of early Christian ethics/law as attested before the devastating epidemic and mass apostasy of AD 249-251, gives reasons for regarding this as the terminal date, and provides a guide to using the lists. At a number of points, this volume deals with objections to its theses. Volume One also furnishes you with complete information as to where you can find and look up the ancient sources cited in translation. Traditional Christian Ethics will help you solve problems in moral decision-making when Scripture is unclear or silent. You can solve them through its comprehensive itemized concordances of citations to precepts of Christian ethics from all translated ancient texts. Its sources possess unassailable authority that cannot be fabricated, and are persuasive among most Christian denominations. Preachers and professional scholars will find them invaluable as a starting point in preparing their own sermons, books, articles, and essays on specific points of ethics.
