## Techniques for Noise Robustness in Automatic Speech Recognition

Automatic speech recognition (ASR) systems are finding increasing use in everyday life. Many of the commonplace environments where the systems are used are noisy, for example users calling up a voice search system from a busy cafeteria or a street. This can result in degraded speech recordings and adversely affect the performance of speech recognition systems. As the use of ASR systems increases, knowledge of the state-of-the-art in techniques to deal with such problems becomes critical to system and application engineers and researchers who work with or on ASR technologies. This book presents a comprehensive survey of the state-of-the-art in techniques used to improve the robustness of speech recognition systems to these degrading external influences.

Key features:

- Reviews all the main noise robust ASR approaches, including signal separation, voice activity detection, robust feature extraction, model compensation and adaptation, missing data techniques and recognition of reverberant speech.
- Acts as a timely exposition of the topic in light of more widespread use in the future of ASR technology in challenging environments.
- Addresses robustness issues and signal degradation which are both key requirements for practitioners of ASR.
- Includes contributions from top ASR researchers from leading research units in the field

### **From reader reviews:**

#### **Regina Noble:**

Do you certainly one of people who can't read pleasurable if the sentence chained within the straightway, hold on guys this aren't like that. This Techniques for Noise Robustness in Automatic Speech Recognition book is readable by simply you who hate those straight word style. You will find the details here are arrange for enjoyable reading experience without leaving actually decrease the knowledge that want to give to you. The writer regarding Techniques for Noise Robustness in Automatic Speech Recognition content conveys the thought easily to understand by a lot of people. The printed and e-book are not different in the information but it just different as it. So , do you even now thinking Techniques for Noise Robustness in Automatic Speech Recognition is not loveable to be your top listing reading book?

#### **Larry Artz:**

Reading a book tends to be new life style within this era globalization. With studying you can get a lot of information which will give you benefit in your life. Having book everyone in this world may share their idea. Guides can also inspire a lot of people. A lot of author can inspire all their reader with their story or maybe their experience. Not only the storyplot that share in the textbooks. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors these days always try to improve their talent in writing, they also doing some research before they write on their book. One of them is this Techniques for Noise Robustness in Automatic Speech Recognition.

#### **Violet Jarrell:**

Spent a free time to be fun activity to try and do! A lot of people spent their down time with their family, or their particular friends. Usually they performing activity like watching television, gonna beach, or picnic inside park. They actually doing same task every week. Do you feel it? Do you wish to something different to fill your free time/ holiday? May be reading a book is usually option to fill your cost-free time/ holiday. The first thing you will ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the reserve untitled Techniques for Noise Robustness in Automatic Speech Recognition can be fine book to read. May be it might be best activity to you.

#### **Donald Warren:**

A lot of reserve has printed but it takes a different approach. You can get it by internet on social media. You can choose the best book for you, science, amusing, novel, or whatever by searching from it. It is referred to as of book Techniques for Noise Robustness in Automatic Speech Recognition. You can include your knowledge by it. Without causing the printed book, it could possibly add your knowledge and make a person happier to read. It is most important that, you must aware about reserve. It can bring you from one spot to other place.
