“Late Street” Strategies For Getting Max Value Out Of Your Hands

Need some specific, step-by-step instructions on which boards to bluff raise, when to barrel, and how to extract the most value out of your hands? Look no further...check out this “late street” book and get the proven tips you need to get the maximum value out of your hands as you move from the flop to the late streets.

Inside You'll Learn About:

- **Check-Raising the Turn:** Check-raising the turn is one of the most powerful moves in PLO, especially as you move up into the more aggressive mid and high stakes games.

The purpose of this chapter is to show you the benefits of check-raising the turn by first going over some theory, and then showing you how it applies to in-game situations.

- **How to Maximize Your Value on the River:** In case you've been misinformed, I want to remind you that the majority of your money is **NOT** won from trapping players on the river.

Getting big value bets paid off on the river is the easiest way to rapidly build your win-rate. In this chapter, you will learn which opponents are easiest to value bet, and how to "playing the hand backwards" can help you choose the optimal bet sizing.

- **Triple Barreling:** Triple barreling and double barreling share a couple of similar characteristics, but they're different enough to make spending some time on each one individually necessary.

In this chapter, you'll learn why it's important to get caught bluffing, and the three keys to triple barreling profitably.
