Dilemmas Adulthood Nancy Ross Rosenberger

Nancy Rosenberger investigates the nature of long-term resistance in a longitudinal study of more than fifty Japanese women over two decades. Between 25 and 35 years of age when first interviewed in 1993, the women represent a generation straddling the stable roles of post-war modernity and the risky but exciting possibilities of late modernity. Rosenberger's analysis establishes long-term resistance as a vital type of social change in late modernity where the sway of media, global ideas, and friends vies strongly with the influence of family, school, and work. In an epilogue, the women's experiences are framed by the aftermath of the 2011 earthquake and tsunami, which is already shaping the future of their long-term resistance. Rosenberger's book is essential for anyone wishing to understand how Japanese women have maneuvered their lives in the economic decline and pushed for individuation in the 1990s and 2000s.
