## **God and the Astronomer** Robert Jastrow

"Strange developments are going on in astronomy,' writes Robert Jastrow. ....'astronomers have proven the universe was created in a fiery explosion twenty billion years ago. In the searing heat of the first moment, all the evidence was melted down and destroyed that science might have used to determine the cause of the great explosion.' Dr. j Jastrow writes, 'This is the crux of the new story of Genesis.' "The scientist has scaled the mountain of ignorance; he is about to conquer the highest peak; as he pulls himself over the final rock, he is greeted by a band of theologians who have been sitting there for centuries."
