Pattern-Based Compression of Multi-Band Image Data for Landscape Analysis (Environmental and Ecological Statistics) Wayne L. Myers, Ganapati P. Patil

This book describes an integrated approach to using remotely sensed data in conjunction with geographic information systems for landscape analysis. Remotely sensed data are compressed into an analytical image-map that is compatible with the most popular geographic information systems as well as freeware viewers. The approach is most effective for landscapes that exhibit a pronounced mosaic pattern of land cover.
