There are tens of thousands of self-help books on psychology and human relationships; however, there are very few that integrate the topics of the soul and spirit into the picture. Most books on this subject focus on personality-level self-actualization. The new wave in the field of psychology is transpersonal or soul psychology, which will lead to monadic psychology for the more advanced students of the path.

The entire understanding of psychology is completely changed when the soul is properly integrated. It has been said that personality-level self-actualization brings happiness, soul-level self-actualization brings joy, and monadic- and spiritual-level self-actualization bring bliss.
