The career of a city contains as much good material, out of which an entertaining history may be constructed, as does the life of an individual, or the development of a nation; but, for some reason, it has come to pass in America that the preparation of city, or "local", history has usually fallen into the hands of schemers who exploit the "prominent" citizen for his biography, and throw in something of a narrative, merely as an apology for the book's existence. The present book is an attempt to supply in convenient and portable shape the material facts in the history of Los Angeles city. It contains nothing in the form of paid or biographical matter (strange that such a statement should be needed!), and it is offered for sale at the bookshops on its merits as a book.
