Flying! Airplanes, Aircraft & Space Travel: Flight From The Past, Present And To The Future With Fun Interesting Facts And Over 100 Amazing Pictures All About Flight (Flying and Aviation) Gary Dickinson

Love Flying? Love Planes? Love Aviation? Then look no further! Learn fun and interesting facts about aircraft that will blow your mind!

Learn about one of the worlds most amazing achievements that all started with a dream. This is an easy to understand book to stimulate young minds about the world of aviation. From dreamers of the past that dreamt about putting man into a "flying machine", to the dreamers of today wanting to take passengers into space.

The book describes those early designs (and attempts) of flight, the successes and the failures, the record breakers, planes past, present and future and the modern day uses of aircraft today.

With over 100 absolutely amazing pictures that bring the stories alive, learn about parachutes, paragliders, hang-gliders, gliders and microlights; small planes, large planes; sub-sonic and super-sonic. It's all here in one book.

Intended for children 9+, however it would also be enjoyed by younger children if the reading is shared with an adult.

This book is simply a "must have" for anyone with the slightest interest in airplanes and perhaps wanting to nurture a dream of their own.
