The Korean Peninsula in Transition (St. Antony's) Dae Hwan Kim

Since the 1980s the Korean peninsula has been in a state of transition. Forged by the Cold War, the politico-economic systems of North and South Korea as well as the international system of Northeast Asia are in a state of flux. Apart from identifying the main aspects of the transition taking place, this volume explains the sources of change and continuity, and relates the empirical trends from Korea to the contemporary debates in the social sciences.
