Coding for Librarians: Learning by Example (Library Technology Reports)

Andromeda Yelton

Coding for Librarians: Learning by Example (Library Technology Reports) Andromeda Yelton Learning even the rudiments of how to code can increase productivity and effectiveness for librarians and their organizations, and getting started is easier than you might think. The result of interviews with more than 50 librarians, this issue of *Library Technology Reports* describes and links to dozens of short programs, most with less than 100 lines of code, that are in place and solving problems in libraries today. For example, Becky Yoose eliminated several steps in automating a purchase process triggered by patron-driven acquisition, measurably saving catalogers' time. Yelton also addresses organizational issues such as gaining buy-in from administrators, collaborating with nontechnical staff, and overcoming institutional barriers. Coverage includes:

- Scripts that present data to help decision-makers
- Streamlining data import, export, and clean-up
- Improving user experience with Javascript or jQery
- Three deep dive examples with line-by-line analysis, addressing patron alerts, ILS reporting, and a LibGuides organizer
- Survey respondents' recommendations on how to learn coding

From reader reviews:

Leah Pelton:

What do you think of book? It is just for students since they are still students or this for all people in the world, the actual best subject for that? Merely you can be answered for that query above. Every person has diverse personality and hobby per other. Don't to be pressured someone or something that they don't wish do that. You must know how great along with important the book Coding for Librarians: Learning by Example (Library Technology Reports). All type of book are you able to see on many resources. You can look for the internet solutions or other social media.

Teresa Dawkins:

As people who live in typically the modest era should be upgrade about what going on or information even knowledge to make these individuals keep up with the era and that is always change and move forward. Some of you maybe will probably update themselves by examining books. It is a good choice in your case but the problems coming to you is you don't know what type you should start with. This Coding for Librarians: Learning by Example (Library Technology Reports) is our recommendation so you keep up with the world. Why, as this book serves what you want and need in this era.

Joseph Chitwood:

Spent a free time for you to be fun activity to do! A lot of people spent their down time with their family, or all their friends. Usually they carrying out activity like watching television, about to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your free time/ holiday? Could be reading a book is usually option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the book untitled Coding for Librarians: Learning by Example (Library Technology Reports) can be good book to read. May be it can be best activity to you.

Joan Morris:

Playing with family inside a park, coming to see the marine world or hanging out with friends is thing that usually you have done when you have spare time, after that why you don't try issue that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Coding for Librarians: Learning by Example (Library Technology Reports), you could enjoy both. It is very good combination right, you still wish to miss it? What kind of hangout type is it? Oh seriously its mind hangout people. What? Still don't obtain it, oh come on its named reading friends.
