IShel Silverstein meets Strunk and White and the results are both hilarious and instructive. With over 120 illustrations and gobs of delightfully goofy examples and exercises, this book provides a lighthearted and ludicrous guide to the essential elements of language and grammar...not to mention a few writing tips thrown into the mix.

Grammar has often been taught as joyless process of memorizing rules and diagramming phony sentences, but most writers will tell you that grammar actually promotes a love of language. Not only can the study of grammar be fun and joyful, this unique primer can also be used by adults everywhere who simply need a single volume at the ready to keep them on the straight and narrow...and laughing all the way!
